CLINICAL BIOMECHANICS

A journal affiliated to the International Society of Biomechanics and the American Society of Biomechanics

INDEX: VOLUME 11 1996

Volume 11 Number 1 January 1996

NEW CONCEPTS AND HYPOTHESES

1 **Mechanical stability of the *in vivo* lumbar spine: implications for injury and chronic low back pain**
J Cholewicki, S M McGill

PAPERS

16 **Mechanical behaviour of hamstring muscles in low back pain patients and control subjects**
F Tafazzoli, M Lamontagne

25 **Development and evaluation of a scalable and deformable geometric model of the human torso**
M A Nussbaum, D B Chaffin

35 **Properties of musculus gluteus maximus in above-knee amputees**
H Burger, V Valenčič, Č Marinček, N Kogovšek

39 **Three-dimensional kinematics of the rearfoot during the stance phase of walking in normal young adult males**
L Moseley, R Smith, A Hunt, R Gant

46 **The deleterious effect of tetanic contraction on rabbit's triceps surae muscle during cyclic loading**
J-S Sun, Y-H Tsuang, Y-S Hang, T-K Liu, W W-L Lee, C-K Cheng

51 **Pedal forces produced during neuromuscular electrical stimulation cycling in paraplegics**
P Sinclair, G M Davis, R M Smith, B S Cheam, J R Sutton

BRIEF REPORT

58 **A computertomographic study on the congruence of the hip joint**
L Bernd, H Mau, K Bläsius

Volume 11 Number 2 March 1996

REVIEW PAPER

61 **Epidemiological and aetiological aspects of low back pain in vibration environments — an update**
D G Wilder, M H Pope

PAPERS

75 **Non-uniformity of contact stress on polyethylene inserts in total knee arthroplasty**
R E Bristol, D C Fitzpatrick, T D Brown, J J Callaghan

81 **Biarticulating two-dimensional computer model of the human patellofemoral joint**
H S Gill, J J O'Connor

90 **Position and orientation in space of bones during movement: experimental artefacts**
A Capozzo, F Catani, A Leardini, M G Benedetti, U Della Croce

101 **Validation of two 3-D segment models to calculate the net reaction forces and moments at the L_5/S_1 joint in lifting**
A Plamondon, M Gagnon, P Desjardins

111 **Effect of posture on hip joint moment during pregnancy, while performing a standing task**
J A Paul, H Sallé, M H W Frings-Dresen

116 **Influences of configuration changes of the patella on the knee extensor mechanism**
C-K Cheng, N-K Yao, H-C Liu, K-S Lee

Volume 11 Number 3 April 1996

PAPERS

121 **Use of robotics technology to measure friction in animal joints**
K Mabuchi, J Fujie

126 **Relationship between alignment and kinematic and kinetic measures of the knee of osteoarthritic elderly subjects in level walking**
L F Teixeira, S J Olney

135 **An isokinetic study of combined activity of the hip and knee extensors**
Z Dvir

139 **Trunk muscle parameters determined from MRI for lean to obese males**
S Wood, D J Pearsall, R Ross, J G Reid

145 **Trunk and hip muscle recruitment in response to external anterior lumbosacral shear and moment loads**
U Raschke, D B Chaffin

153 **Sit to stand from progressively lower seat heights — alterations in angular velocity**
M Schenkman, P O Riley, C Pieper

159 **Generalizability of in-shoe peak pressure measures using the F-scan system**
M J Mueller, M J Strube

165 **Technique for the measurement of hindfoot inversion and eversion and its use to study a normal population**
P Ball, G R Johnson

170 **Quantitative intramuscular myoelectric activity of quadratus lumborum during a wide variety of tasks**
S McGill, D Juker, P Kropf

173 **An ultrasonic-operated kinematic measurement system for assessment of stance balance in the clinic**
R Dickstein, N Abulaffio, I Gelernter, T Pillar

176 **Postural stability measures: what to measure and for how long**
K Le Clair, C Riach

179 **REVIEWS**

Volume 11 Number 4 June 1996

PAPERS

181 **Lower extremity joint loading during impact in running**
G K Cole, B M Nigg, A J van den Bogert, K G M Gerritsen

194 **Time-dependent changes in the lumbar spine's resistance to bending**
M A Adams, P Dolan

201 **Three-dimensional analysis of active cervical motion: the effect of age and gender**
P H Trott, M J Pearcy, S A Ruston, I Fulton, C Brien

207 **Biomechanical and histological changes in the patellar tendon after *in situ* freezing**
K Ohno, K Yasuda, N Yamamoto, K Kaneda, K Hayashi

214 **An experimental study of damage accumulation in cemented hip prostheses**
B A O McCormack, P J Prendergast, D G Gallagher

220 **Scapho-lunate dissociation and arthrodesis. An experimental study with lesions of the interosseous ligament and fusions with K-wires**
H L P Hurkmans, J G M Kooloos, R S Meijer

227 **Rotational laxity and stiffness of the radiocarpal joint**
M J P F Ritt, P R Stuart, L J Berglund, R A Berger, R L Linscheid, W P Cooney III, K-N An

BRIEF REPORTS

233 **Isokinetic and isometric strength of the thigh muscles in below-knee amputees**
E Isakov, H Burger, M Gregorič, C Marinček

236 **Body height changes with hyperextension**
M Magnusson, M H Pope

239 **Obituary, Stephen Pheasant (1949–1996)**
K Burton, P Buckle

240 **LETTERS TO THE EDITOR**

Volume 11 Number 5 July 1996

PAPERS

243 **Biomechanics of longitudinal arch support mechanisms in foot orthoses and their effect on plantar aponeurosis strain**
G F Kogler, S E Solomonidis, J P Paul

253 **Relationship between vertical ground reaction force and speed during walking, slow jogging, and running**
T S Keller, A M Weisberger, J L Ray, S S Hasan, R G Shiavi, D M Spengler

260 **Computer-aided three dimensional assessment of knee-joint cartilage with magnetic resonance imaging**
O J Muensterer, F Eckstein, D Hahn, R Putz

267 **Intra-abdominal pressure during trunk extension motions**
W S Marras, G A Mirka

275 **The use of artificial neural networks to identify patients with chronic low-back pain conditions from patterns of sit-to-stand manoeuvres**
G Gioftsos, D W Grieve

281 **Spinal compression at peak isometric and isokinetic exertions in simulated lifting in symmetric and asymmetric planes**
S Kumar

290 **Biomechanical aspects of plating osteosynthesis of transverse clavicular fracture with and without inferior cortical defect**
T Harnroongroj, V Vanadurongwan

295 **Direct measurement of hoop strains in the intact and torn human medial meniscus**
R Spencer Jones, G C R Keene, D J A Learmonth, D Bickerstaff, N S Nawana, J J Costi, M J Pearcy

301 **Observations on the F-Scan in-shoe pressure measuring system**
J Woodburn, P S Helliwell

Volume 11 Number 6 September 1996

PAPERS

305 **Thoracolumbar disc degeneration in young fast bowlers in cricket: a follow-up study**
A F Burnett, M S Khangure, B C Elliott, D H Foster, R N Marshall, P H Hardcastle

311 **An *in vivo* study of the primary and coupled rotations of the thoracic spine**
J M Willems, G A Jull, J K-F Ng

317 **Reproducibility of lumbar paraspinal surface electromyogram power spectra**
C W Oliver, K M Tillotson, A P C Jones, R A Royal, C G Greenough

322 **Clinical and biomechanical aspects of external fixation of the pelvis**
H Rieger, S Winckler, D Wetterkamp, J Overbeck

328 ***In vivo* validation of *in vitro* testing of hallucal flexor mechanics**
S M Walsh, C L Saltzman, K D Talbot, R L Aper, T D Brown

333 **Maximum voluntary weight-bearing by the affected and unaffected legs in standing following stroke**
P A Goldie, T A Matyas, O M Evans, M Galea, T M Bach

343 **Failure of stimulated skeletal muscle mainly contributed by passive force: an *in vivo* rabbit model**
Y-S Hang, Y-H Tsuang, J-S Sun, C-K Cheng, T-K Liu

348 **Combined models of ultrasound velocity and attenuation for predicting trabecular bone strength and mineral density**
S Han, J Medige, I Ziv

354 **Bilateral femoral rotations measured during walking: a new parameter to summarize and describe individual gait**
M B Ayres, M J Pearcy, R A Frick, M H Sharpe

BRIEF REPORTS

358 **Appropriateness of plane pressure-sensitive film calibration for contact stress measurements in articular joints**
E M Hasler, W Herzog, G H Fick

361 **The reliability of postural sway measures using the 3SPACE Tracker**
D J Carrera, M H Sharpe, M J Pearcy, R A Frick

Volume 11 Number 7 October 1996

PAPERS

365 **The accumulation of fatigue microdamage in human cortical bone of two different ages *in vitro***
P Zioupos, X T Wang, J D Currey

376 **Assessment of scoliotic deformity from back shape asymmetry using an improved mathematical model**
B Drerup, E Hierholzer

385 **Quantitative assessment of the control capability of the trunk muscles during oscillatory bending motion under a new experimental protocol**
J Y Kim, M Parnianpour, W S Marras

392 **EMG activities of the quadratus lumborum and erector spinae muscles during flexion–relaxation and other motor tasks**
E A Andersson, L I E Oddsson, H Grundström, J Nilsson, A Thorstensson

401 **Passive properties of the forearm musculature with reference to hand and finger postures**
P J Keir, R P Wells, D A Ranney

410 **Microcirculation in the footsole as a function of mechanical pressure**
M J Meinders, A de Lange, P M Netten, H Wollesheim, J A Lutterman

418 **Intratester and intertester reproducibility of the lumbar motion monitor as a measure of range, velocity and acceleration of the thoracolumbar spine**
K P Gill, M J Callaghan

BRIEF REPORT

422 **Artificial intelligence analysis of paraspinal power spectra**
C W Oliver, W J Atsma

Volume 11 Number 8 December 1996

PAPERS

425 **The static and dynamic behaviour of tibial fractures due to unlocking external fixators**
T N Gardner, J R W Hardy, M Evans, J B Richardson, J Kenwright

431 **Load sharing in augmented anterior cruciate ligament repair: a mathematical analysis based on *in vitro* measurements**
H Seitz, B Wielke, I Schlenz, W Pichl, V Vécsei

439 **Passive knee muscle moment arms measured *in vivo* with MRI**
P Wretenberg, G Németh, M Lamontagne, B Lundin

447 **Diagnosis of knee instability using sonography**
J Grifka, P Huhle, S Boenke, K Bernsmann, R Krämer, J Krämer

457 **Precision measurement of segmental motion from flexion–extension radiographs of the lumbar spine**
W Frobin, P Brinckmann, G Leivseth, M Biggemann, O Reikerås

466 **Can the computerized physical examination differentiate normal subjects from abnormal subjects with benign mechanical low back pain?**
N Newman, S Gracovetsky, M Itoi, J Zucherman, M Richards, P Durand, C Xeller, D Carr

474 **A non-invasive protocol for the determination of lumbar spine mobility**
W-K Chiou, Y-H Lee, W-J Chen, M-Y Lee, Y-H Lin

BRIEF REPORTS

481 **Validation of a 3D optoelectronic motion analysis system for the wrist joint**
C F Small, J T Bryant, I L Dwosh, P M Griffiths, D R Pichora, B Zee

484 **Angular movements of the lumbar spine and pelvis can be reliably measured after 4 minutes of treadmill walking**
N F Taylor, O M Evans, P A Goldie
